Description

To encourage the support of professional development for pathology educators, the Group for Research in Pathology Education (GRIFE) is again offering the John H. Holliman Resident Scholarship to a pathology resident who is sincerely interested in pursuing undergraduate or graduate teaching of pathology as part of their career planning. GRIFE is a national/international organization of institutions, interest groups, and individuals who are dedicated to improving the quality of pathology education in allopathic and osteopathic medical, nursing, dental and allied health schools.

Applicant
